Section 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

# TRANSMISSION AXLE 8 FE 75W-140

Revision Date: 2016-12-29

Version 2.03

#### REGULATION (EC) No 1272/2008

For the full text of the H-Statements mentioned in this Section, see Section 2.2.

#### Classification

The product is classified as dangerous in accordance with Regulation (EC) No. 1272/2008 Serious eye damage/eye irritation - Category 2 - (H319)

### 2.2. Label elements

Labelled according to

REGULATION (EC) No 1272/2008

Signal Word WARNING

Hazard Statements H319 - Causes serious eye irritation

#### **Precautionary Statements**

P101 - If medical advice is needed, have product container or label at hand

P102 - Keep out of reach of children

P280 - Wear eye protection/ face protection

EUH208 - Contains Polysulfides, di-tert-Bu; Reaction products of 4-methyl-2-pentanol and diphosphorus pentasulfide, propoxylated, esterified with diphosphorus pentaoxide, and salted by amines, C12-14- tert-alkyl May produce an allergic reaction

#### 2.3. Other hazards

Physical-Chemical Properties	Contaminated surfaces will be extremely slippery.

**Environmental properties** 

Should not be released into the environment.

## Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.2. Mixture

#### Hazardous ingredients

O,O,O-triphenyl phosphorothioate	209-909-9	no data available	597-82-0	0.3-<1	Repr. 2 (H361) Aquatic Chronic 4 (H413)

Additional information

The product is made from synthetic base oils (Polyalfaolefins) .

For the full text of the H-Statements mentioned in this Section, see Section 16.

# Section 4: FIRST AID MEASURES

### 4.1. Description of first-aid measures

General advice	IN CASE OF SERIOUS OR PERSISTENT CONDITIONS, CALL A DOCTOR OR EMERGENCY MEDICAL CARE.
Eye contact	Rinse thoroughly with plenty of water, also under the eyelids.
Skin contact	Remove contaminated clothing and shoes. Wash skin with soap and water. Wash contaminated clothing before reuse. High pressure jets may cause skin damage. In this case, the casualty should be sent immediately to hospital.
Inhalation	Move to fresh air.
Ingestion	Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
4.2. Most important sympto	oms and effects, both acute and delayed
Eye contact	Causes serious eye irritation.
Skin contact	Not classified. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons.
Inhalation	Not classified. Inhalation of vapors in high concentration may cause irritation of respiratory system.
Ingestion	Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
4.3. Indication of any imme	ediate medical attention and special treatment needed

# TRANSMISSION AXLE 8 FE 75W-140

	<b>Revision Date:</b> 2016-12-29 Version 2.03
Notes to physician	Treat symptomatically.
Section 5: FIRE-FIGHTING	MEASURES
5.1. Extinguishing media	
Suitable Extinguishing Media	Foam. Carbon dioxide (CO 2). ABC powder. Water spray.
Unsuitable Extinguishing Media	Do not use a solid water stream as it may scatter and spread fire.
5.2. Special hazards arisin	ng from the substance or mixture
Special Hazard	Incomplete combustion and thermolysis produces potentially toxic gases such as carbon monoxide and carbon dioxide, Mercaptans, Hydrogen sulphide, Sulfur oxides, Nitrogen oxides (NOx), Phosphorous oxides.
5.3. Advice for fire-fighters	5
Special protective equipment for fire-fighters	Wear self-contained breathing apparatus and protective suit.
Other information	Cool containers / tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
Section 6: ACCIDENTAL RE	LEASE MEASURES
6.1. Personal precautions,	protective equipment and emergency procedures
General Information	Do not touch or walk through spilled material. Contaminated surfaces will be extremely slippery. Ensure adequate ventilation. Use personal protective equipment. Avoid contact with skin, eyes and clothing. Remove all sources of ignition.
6.2. Environmental precau	itions
General Information	Try to prevent the material from entering drains or water courses. Local authorities should be advised if significant spillages cannot be contained. Do not allow material to contaminate ground water system.
6.3. Methods and material	for containment and cleaning up
Methods for cleaning up	Dam up. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.
6.4. Reference to other se	ctions_
Personal Protective Equipment	See Section 8 for more detail.

# TRANSMISSION AXLE 8 FE 75W-140

Revision Date: 2016-12-29 Version 2.03 See section 13. Waste treatment Section 7: HANDLING AND STORAGE 7.1. Precautions for safe handling Advice on safe handling When using, do not eat, drink or smoke. For personal protection see section 8. Use only in well-ventilated areas. Do not breathe vapors or spray mist. Avoid contact with skin, eyes and clothing. Take precautionary measures against static discharges. Ground/bond containers, tanks Prevention of fire and explosion and transfer/receiving equipment. Ensure the application of strict rules of hygiene by the personnel exposed to the risk of **Hygiene measures** contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into workwear pockets. 7.2. Conditions for safe storage, including any incompatibilities **Technical measures/Storage** Keep away from food, drink and animal feedingstuffs. Keep in a bunded area. Keep conditions container tightly closed. Keep preferably in the original container. Otherwise reproduce all indication of the regulation label on the new container. Do not remove the hazard labels of the containers (even if they are empty). Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot casings or electrical contacts. Protect from frost, heat and sunlight. Protect from moisture. Materials to Avoid Strong oxidizing agents. 7.3. Specific end uses Specific use(s) No information available. Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION 8.1. Control parameters **Exposure limits** Do not contain substance with european workplace exposure limits in concentration above regulatory thresholds Legend See section 16

12.4. Mobility in soil			
Soil	Given its physical and chemical characteristics, the product generally shows low soil mobility.		
Air	Loss by evaporation is limit	Loss by evaporation is limited.	
Water	Insoluble. The product spreads on the surface of the water.		
12.5. Results of PBT and vPvB assessment			
PBT and vPvB assessment	T and vPvB assessment No information available.		
12.6. Other adverse effects			
General Information	neral Information No information available.		
Section 13: DISPOSAL CONSIDERATIONS			

## 13.1. Waste treatment methods

Waste from Residues / Unused Products	Should not be released into the environment. Dispose of in accordance with the European Directives on waste and hazardous waste. Where possible recycling is preferred to disposal or incineration. After use, this oil must be sent to a licensed waste oil facility. Incorrect disposal of used oil poses a risk to the environment. Mixture with other waste types such as solvents, brake- and cooling liquids is forbidden.
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.
EWC Waste Disposal No.	The following Waste Codes are only suggestions:. 13 02 06.
Other information	According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application for which the product was used.

ACGIH = American Conference of Governmental Industrial Hygienists

bw = body weight

bw/day = body weight/day

EC x = Effect Concentration associated with x% response

GLP = Good Laboratory Practice

IARC = International Agency for Research of Cancer

LC50 = 50% Lethal concentration - Concentration of a chemical in air or a chemical in water which causes the death of 50% (one half) of a group of test animals

LD50 = 50% Lethal Dose - Chemical amount, given at once, which causes the death of 50% (one half) of a group of test animals

LL = Lethal Loading

NIOSH = National Institute of Occupational Safety and Health

NOAEL = No Observed Adverse Effect Level

- NOEC = No Observed Effect Concentration
- NOEL = No Observed Effect Level

# TRANSMISSION AXLE 8 FE 75W-140

 This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006

This safety data sheet serves to complete but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk. The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfil his obligations. This list is not to be considered complete and exhaustive. It is the user's responsibility to ensure that he is subject to no other obligations than those mentioned.
